ETPL POLICY WORKGROUP'S PRIORITIES REVIEW

Terry Wilkerson

Priority 1: Revise the current ETPL policy based on TEGs released by the Department of Labor (DOL)

Priority 2: Assure the ETPL policy follows DOL findings

Priority 3: Provide a revised policy for approval by the IWIB Executive Committee in September 2022

Priority 4: Address the Pending Equity Task Force Recommendations

MAY MEETING OVERVIEW

Sarah Blalock

Priority 2: Assure the ETPL policy follows DOL findings

Key Area 1: Creation, Maintenance and Dissemination of the ETPL

- The DOL requires the State to develop, maintain and disseminate the ETPL

Key Area 2: RAP Automatic Eligibility

- The State must establish a minimally burdensome mechanism for automatically adding RAP programs and verifying registration at least every 2 years

Key Area 3: Eligibility Requirements

- The DOL requires that the State create eligibility requirements and continued eligibility determinations

Key Area 4: Verification of Accuracy and Ongoing Eligibility

- The current State Policy will include that all ETPs (except RAPs) are required to provide minimum performance data for initial and ongoing eligibility

TODAY'S FOCUS

Sarah Blalock

Priority 1: Revise the current ETPL policy based on TEGs released by the Department of Labor (DOL)

Priority 2: Assure the ETPL policy follows DOL findings

- The DOL requires the State to develop, maintain and **disseminate** the ETPL

Priority 3: Provide a revised policy for approval by the IWIB Executive Committee in September 2022

Priority 4: Address the Pending Equity Task Force Recommendations

WORKGROUP ROLES:

MOVING FORWARD

Sarah Blalock

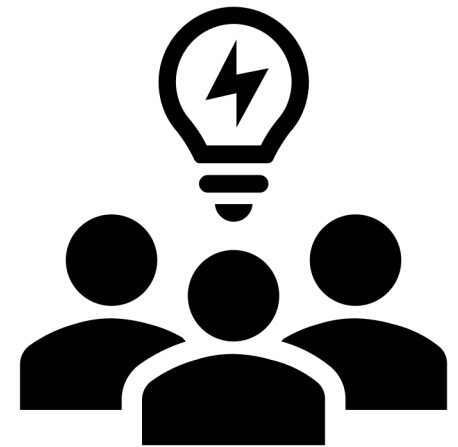

- In order to meet our deadline:
 - **Policy Writing Subgroup** will focus on the immediate *language* needs of the ETPL Policy
 - **ProPath Subgroup** will focus on reviewing the ProPath website and provide feedback to workgroup
 - **ETPL Workgroup** will review the findings of both subgroups and make recommendations to the IWIB and decide how to implement ETF recommendations
- Long-term recommendations for implementation planning, internal procedures, marketing and outreach will be the focus of the entire workgroup

GROUP DISCUSSION: HOMEWORK REVIEW

Terry Wilkerson

- How does your local board manage the ETPL process?
- How can the State determine whether the provider submitted accurate information and what enforcement actions are being taken if necessary?
- What can the state do to reach out to RAPs to inform them of their automatic eligibility on the ETPL and how to indicate their interest to be on the ETPL?
- Do the LWIBs have examples of what they are doing?

ETPL DISSEMINATION

Sarah Blalock

Dissemination: the action or fact of spreading something, especially information, widely (*Oxford Languages*)

Current Dissemination Mechanism:

The screenshot displays the Illinois WorkNet Center website interface. At the top, there is a navigation bar with links for Menu, Login, Sign Up, Search, Español, Partners, and Share. The main heading is "Start Your Search". Below this, a search filter section includes dropdowns for "Search Type and Mode" (set to Training Programs), "Local Workforce Innovation Area", "Job Family and Related Occupations", "City or Zip Code" (with a "Lookup" link), and "Training Program Type". There are also input fields for "Keywords" and "Page Size" (set to 25 Results per page), and a "Sort Order" dropdown (set to Alphabetical). Below the filters, a button bar contains "Search", "Reset", "Export", and "Select up to 3 results to compare". The search results section shows "Found 4505 results". Two results are visible: "116 Professional Level Home Inspection Course" and "12 Weeks IT Elite: Agile SAFE, DevOps, AI Machine and AWS Management & Information Tech Solutions (MITS)". Each result includes details like location, cost, time, goal, and training program type, along with a "Map It" button. A map on the right side of the page shows the state of Illinois with red pins indicating the locations of the training programs. The text "No performance data available." is displayed next to each result.
